King Media Center Grant Is Approved

A $70,000 federal grant has been approved to establish a new media center at Martin Luther King Junior High School in Seaside.

Allan J. Petersdorf, superintendent of the Monterey Peninsula Unified School District, announced that approval of the project, expected to be operational when shcool begen next fall, has been granted.

The funds will be paid under title II, Phase II of the Elementary and Secondary Education Act and will provide library equip ment and materials for the school.

King's new Media Center will be the third established in the Monterey Penisula Unifies School District, the others having been located at Monterey High School and Highland Elementary School. District Librarian Joan Stone said only three other school systems in California have such centers at each school level -- elementary, junior and senior high.

King is the newest junior high school in the district and its library was designed to house a media center, although minor remodeling will be necessary.

The proposed center was designed by King teachers and Mrs. Helen Rucker, the school's librarian. A committee of teachers and students will review and select materials to be housed in the center, which will be equipped with projects, filmstrip viewers, phonographs, tape recorders, earphones and tther aids. Books, tapes, films, film-strips and records will be among the material available for student use.

The center will provide alternatives for students who experience difficulty in achieving success in traditional educational programs. It will be used by induvidual students or small or large groups. The wide range of equipment and materials there will allow students to choose topics or methods relative to their individual needs and even to develop materials that can be used by other students.

Teachers will be able to use the center to provide remediation for their students or to enrich traditional learning activities.

Mrs. Stone noted that about $2 million is set aside for California this year for the development of media centers. The money is granted to those shcool districts th at can design "exemplary demonstration library programs" that can be used as models for other school systems.

Mrs. Stone, Mrs. Rucker and Principal Kenneth Dunbar will attend a workshop in Scramento in April to share ideas with representatives from other school districts in the state that have media centers.

County Man Named Press Aide

Senator John V. Tunney recently announced the appointment of Win Griffith as his press secretary.

Griffith replaces Hadley Roff, who is becoming Deputy Press Secretary in the Muskie for President Campaign.

Tunney's new press secretary is a native Californian whose home is in Carmel Valley. He was graduated from Stanford University and was a reporter with the San Francisco Examiner in the late 1950's.

He is a former Chief Deputy State Controller in Sacramento with Alan Cranston and was press secretary to Senator Hubert H. Humphrey of Minnesota in Washington.

Griffith has authored two books on American politics and government. In recent years he has also free-lanced with articles in national magazines.

Gold Rush Days Here

Winnie-the-Pooh Auxillary of Children's Home Society is sponsoring their annual "Gold Rush Days" Party this Saturday, March 4, at the Carmel Art Association Gallery.

A tostada dinner will be served during the games while the Hangtown 2 plus 2 and the Blue Ocean Jazz play for dancing.

All the prizes have been donated by local merchants for the games including a sight-seeing tour of the Monterey Peninsula by air for three people.

Free Concert Is Saturday

The Crown Chamber Players, members of the faculty of the University of California, Santa Cruz, will be presented in a free concert on Saturday evening, March 4, at 8:15 p.m., at the Pacific Grove Junior High School Auditorium, under auspices of the Monterey Peninsula Concert Association. The concert is presented as an Outspan Project of the University of California .The public is cordially invited to attend.

Rosario Mazzeo, music director and clarinettist, is now a resident of Carmel and well known to local audiences. He was for 33 years clarinettist and personnel manager with the Boston Symphony Orchestra, a member of the faculty of the Bershire Music Center at Tanglewood from its inception until 1966, as well as chairman of the faculty of the New England Conservatory for almost a quarter of a century.

Similarly, William Ven Den Burg, cellist, needs no introduction. Principal cellist and assistant conductor of the Monterey County Symphony Orchestra, Mr. Van Den Burg is a graduate of the Royal Conservatory at The Hague, followed by studies with alexanian and casals. He was solo cellist with the Philadelphia Orchestra under Stokowski and with the San Francisco Symphony under Monteaux.

Also familiar locally is Andor Toth, violinist, who appeared recently in the Brahms Double Concerto with the Monterey Symphony. He will also be remembered as violinist of the Alma Trio.

New Art Showing at City Hall

During March the Seaside Art Commission has a one-man show by Othello Michetti at the Seaside City Hall. In the display cases are enamels by Ruth Buol and stained glass by Louise Pullin. The hours are 8 to 5 Monday through Friday.

Othello Michetti, a California resident since 1921, served as art director of Stecher-Traung-Schmidt Lito graph Corporation for forty years. Prior to that, he studied at the Art Students League of New York. He has established himself as a painter in watercolor and casein, exhibiting frequently, receiving many awards, lecturing, teaching and serving on art juries.

He is an active member of the Society of Western Artists, Marin Society of Artists, Alameda Art Association and West Coast Watercolor Society. His passion for painting outdoors has led him on extensive travels throughout the world.

Last month he had a one-man show at the Egyptian Museum in San Jose.

Ruth Buol has worked with enamels on copper since 1951. She Studied in Paris, Florence, Italy and is a graduate of Damrosch Institute. She creates portrait and "salon" paintings in Limoges-style enamel. Her work is in private collections throughout the States. She owns and operated her own studie/gallery in Carmel, showing her works exclusively.

Louise Pullin is a graduate of the University of Or egon, but is mainly self-taught in the art of stained glass. Her stained glass windows are in several homes in northern California, as well as the Paul Masson office in San Francisco and the Canterbury Woods Chapel in Pacific Grove. Outside of the Monterey Peninsula she shows her work at the Ruth Carlson Studio/Gallery in Mendocino.

Change In Workmen's Compensation

A new California law which goes into effect March 4 has given employees covered by Workmen's Compensation insurance a right heretofore denied them -- the privilege of choosing their own type of doctor.

The right is granted under provisions of Senate Bill 1561, sponsored by Sen. Ra lph Dills, (D - Los Angeles) and signed into law by Governor Reagan.

The measure provides that employees undergoing treatment for a work-connected injury or illness who are not satisfied with their progress under care of the doctor provided through Workmen's Compensation and who desire chiropractic care may now have a doctor of chiropractic listed among the panel from which he may choose a new doctor.

Previously, the employee had the right to request a change of doctors, but the panel of names submitted to him consisted solely of medical doctors.

According to Dr. DeWitt Stirling of Santa Cruz, president of the Monterey Bay Chiropractic Society, this law enables an injured workman to select the method of treatment which is most effective for his type ailment.

"There are many disorders, including those of the back, spine, neck and extremities, which are treated successfully by chiropractic m ethods," said Dr. Stirling.

"Now a sick or injured worker who believes he can best be treated by a chiropractic doctor can have that treatment under Workmen's Compensation. This law merely gives him a freedom guaranteed by the U. S. Constitution -- freedom of choice."

PUC Gives County Funds

The California Public Utilities Commission has allocated $9,325 to Monterey County to assist the county in paying for its share of the costs of improved crossing protection at two crossings of the Southern Pacific track - at Spreckles Road and Greenfield-Arroyo.

The county and the railroad agreed to share equally in constructing the new protection, which consists of two flashing light signals with automatic gates at each crossing. Cost of construction was estimated to be $37,300.

The PUC allocation from the Crossing Protection Fund will pay half the county's share of construction of the project. The fund was established by the legislature to assist cities and counties in providing increased protection at railroad-highway grade crossings.

Bill Could Stop Dual Inspections

Assemblyman Bob Wood has introduced legislation designed to avoid duplication of state nursery stock inspection procedures.

The bill, introduced with the cooperation of the State Department of Agriculture and the nursery stock industry, would allow California to avoid re-inspecting nursery stock coming into the State if it had been shipped from other states that have high inspection standards equal to California's. The Director of the Department of Agriculture would be able to allow these nursery plants into the State without the necessity of double inspections. The nursery stock involved would largely consist of roses, fruit tree root stock, bulbs and some ornamentals.

Wood said, "the other states would have to comply with the same standards of inspection which apply to nursery stock produced or sold in California. What we are avoiding is the duplication of inspection."

Wood went on to say that in this year of growing demand for state services and an overbearing tax burden, "we are hopeful that our bill will result in a small savings to the taxpayers." Since inspections are performed by county agricultural commissioners and state agricultural employees, there will be a savings to the counties and to the State.

The Monterey County Assemblyman went on to say that sometimes, as is the case with many roses, they are grown in California, inspected and then shipped to Oregon for packaging. They are then individually packaged in Oregon, inspected again and distributed back for sale in California. When they come back to California, they then must be inspected once again.

The County Agricultural Commissions Association has endorsed the concept in this bill. The bill is supported by the nursery stock industry and the Department of Agriculture and there has been no opposition.

Opens Headquarters

Democratic Congressional candidate Julian Camacho opened his Santa Cruz county campaign headquarters at 314 Laurel Street, Santa Cruz, recently.

Camacho lauded his volunteers for fuilding the campaign from scratch.

This lind of sincere participation on the local level is the very thing that may help us solve many of our hometown problems in the future.

"We have over 200 identified volunteers throughout the 12th District, and we'll have hundreds more before we're through. The headquarters, in fact, is really a testimonial to their hard work."

He said that other headquarters are planned soon for the Monterey Peninsula. Salinas and San Luis Obispo.

Camacho headquarters number is $408) 423-6107. Hours are 9:30 a.m. to 4 p.m. Volunteers are needed for precenct work and secretarial duties.

You don't have to have done wrong to wish you had done right. You don't have to have made a mistake to ask for another chance. You don't have to have lied to change your story. But you HAVE to have Faith to believe. Faith is one thing you can not pretend to have. Kindness is another thing that is a natural trait for some people. And when you are good and kind, it shows. You don't have to tell people you feel compassion. They can feel your vibrations. Your aura shines like a glowing light and it illuminates everything around you. When you do the best you can and things do not happen the way you expected, you say, "It was God's will." Was it? Or was it because you did not put enough into it to make it happen. And when you dream of a wonderous event to happen, and it does not, do you believe that it will happen eventually, that it was just deferred? Let me tell you what Langston Hughes said about a deferred dream: "What happens to a dream deferred? Does it dry up like a raisin in the sun, or does it fester like a sore .. and run?"

Don't let your dreams become your Master. Don't let the failure of your dreams cause you undue remorse or sorrow. Let your mind become a giant eraser. When something happens in your life, or to the ones that are dear to you, use your giant eraser like a typist who types something she did not intend to type. Or a writer who writes something he did not intend to write. Erase that

File With Right Agency

A large and growing number of individuals in California are sending their income tax returns to the wrong agency, a state official said recently. They have apparently misunderstood one aspect of the new law on state personal income tax withholding, he said.

The official, Sigurd I. Hansen, Director of the Department of Human Resources Development, said HRD was assigned only one responsibility under the new law: the collection of state income taxes withheld by employers starting in 1972.

"But many people are sending us their personal income tax returns for 1971 or requests for refunds," Hansen said. "Some people are even sending us their federal income tax returns," he said.

Hansen said HRD has already received several thousand of these misdirected tax returns or refund request "and more are coming in every day."

Hansen appealed to the public to take note of the following:

*All matters relating to federal taxation should be addressed to the Internal Revenue Service.

*All matters relating to California state income tax should be addressed to the State Franchise Tax Board, with the sole exception of items relating directly to the new withholding procedure.

Hansen emphasized particularly that HRD was not the agency to contact regarding 1971 income taxes. California tax items should be addressed to the Internal Revenue Service.

Hansen said that HRD's involvement in collection of the withheld taxes came about because HRD already receives disability insurance and unemployment insurance returns from employers.

"Economy and efficiency dictated the move. A small addition to existing returns already being submitted by most California employers was all that was required," Hansen said.

A MULTIMEDIA USA

Friday, March 3 marks the opening of John Dos Passos' and Paul Shyre's USA at the Circle Theatre in Carmel. For several weeks now the sounds of "Alexander's Ragtime Band," "The Black Bottom," "The Charleston," "Naughty Marietta" and "Yankee Doodle Dandy" have floated out of the rehearsal hall on Casanova Street as the energetic cast busily prepares for this exciting piece of theatre. The story is one which creates a flavour of the time, interwoven with delightful vignettes of the celebrities and events of the early 1900's. people such as Valentino, Isadora Duncon, the Wright Brothers and Henry Ford come to life in the fast-moving documentary. Films and slides add depth and texture.

There are no leads in USA. Taking roles in the ensemble acting group are eight active and talented local actors: Rosamund Goodrich, remembered by theatre-goers on the Peninsula for numerous roles including Misalliance, Pygmalion, Cant on a Hot Tin Roof, Look Back in Anger and many others. HJohn Hicks, a noted Photographer, writer and radio accouncer, most recently seen in the Circle's production of They Know What They Wanted and remembered for his role in the Mikado. Janine Kennings, active in Improvisional Theatre at the University of Man and with experience at the Drama Society, Trinity University, Dublin. John Shackford, a new resident on the peninsula with theatre credits in the East and with experience in Joseph Papp's version of Hamlet in New York. Candance Langer, another recent arrival on the peninsula, whose dramatic experience includes work in Hawaii in such plays as the Glass Menagerie, The Crucible, Ondine, and How to Succeed in Business. Ken Hicks, an active theatre person, familiar with all aspects of a theatre operation and an actor whose credits include The Diary of Anne Frank, After the Fall, Ondine, As You Like It, and several directing stints. Lela Ventriss, active in her school here on the peninsula and with dance experience in Hawaii and Chris Thomas, a newcomer to theatre, but whose experience behind the scences is substantial.

Anthony Vintcent directs.

USA plays weekends from March 3 through April 1. Fridays and Saturdays at 8:30 p.m. and Sundays at 7:30 p.m. Tickets, reservations and information are available by calling 624-2669.

NCNW OF MONTEREY COUNTY

There is still time to make reservations for the luncheon which is sponsored by the National Council of Negro Women of Monterey County, to be held at the Mark Thomas Outrigger on Cannery Row, Saturday, March 11 from 11:30 to 2:30. A special program and guest speakers are scheduled for the afternoon. Luncheon is $3, which includes tax and gratuity. Reservations may be made with Mrs. Marion Woodie, 394-2719, Mrs. Mildred Hopkins, 394-0577 or Mrs. Gloria Floyd, 394-6242.

Affair is planned for the purpose of another membershop drive.

Today's Army NEWS By Sgt. Jose Garcia

U.S. ARMY RECRUITER

This week I have important information for prior-Army men residing in TODAY'S ARMY area. Effective March 1 changes went into effect regarding the maximum period of time in which Prior Service personnel may return in their former pay-grades.

A qualified former enlisted man in pay grades E3 through E6 who has completed six years of service or less may return in his former pay grade provided three months have not elapsed since discharge and a vacancy exists in the applicant's former skill and pay grade. Previously the limit was 30 months.

A qualified former senior enlisted man in grades E7 through E9 and individuals who have completed more than six years of service may not return to TODAY'S ARMY before three months but must return within 30 months in order to incur only a one pay-grade reduction.

A vacancy must also exist in his former skill and potential enlistment pay grade. In the event no vacancy exists, enlistment in grade E3 will be allowed. Persons from another service will be allowed to enlist in grade E3.

It's always a pleasure to see our former enlistees stop by our office, whether they are home on leave or have completed their service and home to stay. This past week Warrant Officer Frank T. Klotz, an Army Avaitor stopped by to let us know that he is still in the "SKY DRIVER" business and after a short leave at home will depart for Korea. WO Klotz enlisted for Flight Training in March 1968 and is a qualified Fixed and Rotary Wing Avaitor. He is a resident of Marina and graduated from Seaside High School with the Class of "66".

Another of our former enlistees stopped by also to let us know that he is home to stay. Edward Denning of Marina has been released from active duty, after 18 months service, under TODAY'S ARMY early release program. He will be a civilian-soldier with the local National Guard unit. Edward enlisted in July, 1970, for Airborne training and was a mechanic with the 101st Airborne Division in Vietnam and Ft. Campell, Kentucky. Best of luck to both. THAT'S IT FOR NOW.

Church Services

What an understanding of perfection can mean for mankind will be brought out at Churches of Christ, Scientist, this Sunday.

Opening the Scriptural readings in the Bible Lesson-Sermon on "Man" is this passage from psalms: "Mark the perfect man and behold the upright: for the end of that man is peace."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this citation will be read: "The Christlike understanding of scientific being and divine healing includes a perfect Principle and idea, -- perfect God and perfect man, -- as the basis of thought and demonstration."

Services at First Church of Christ, Scientist, Monterey, begin at 10:30 a.m. They are conducted by Dr. B. Crandell Epps, First Reader, and Mrs. V. Slattery, Second Reader.

failure and begin again.

Louisa Tarkington wrote a poem many years ago and she called it "The Land of Beginning Again."

"I wish that there were some wonderful place called 'The Land of Beginning Again', where all of our mistakes and all of our heartaches, and all of our poor selfish greed could be dropped like some old coat at the door and never put on again. I wish we could come on it all unaware. Like the hunter who finds a lost trail. And I wish that the one whom our blindness had done the greatest injustice of all, could be at the gates like an old friend who waits for the comrade he's gladest to hail. We would find all the things we intended to do, but forgot and remembered too late: Little phrases unspoken. Little promises broken. And all of the thousand and one little duties neglected, that might have perfected the day for one less fortunate. It wouldn't be possible not to be kind. In the 'Land of Beginning Again'. And the ones we misjudged. And the ones whom we grudged their memories of victories here, would find in the grasp of our loving handclasp more than penitent lips could explain. For what had been hardest, we'd know had been best. And what had been lost would be gained. For there isn't a string that will not take wing when we've faced it and laughed it away. And I think that the laughter is most what we're after in the 'Land of Beginning Again'. So I wish that there were some wonderful place called 'The Land of Beginning Again', where all of our mistakes and all of our heartaches, and all of our poor selfish greed could be dropped like some old coat at the door and never put on again."

Almost everyone has the desire to be given another chance. Some people are lucky enough to be aware that the chance they are wishing for is happening now. And some people will never recognize it. I believe that the good people (and most people are basically good) are placed on earth to spread good, or joy, or happiness. But their method may not be recognized at first. So they have to find another way, another method, so to speak, to convey their purpose. If that doesn't work they will find another, and another, until their work on earth is finished. Read T. Lobsang Rampa, any of his books: "The Third Eye," "The Rampa Story," "The Cave of the Ancients," or any of the almost dozen books he has written, and is still writing. You will see that he hasn't finished his work on earth yet. And he has worn out two bodies trying to do it. *And his Master has revealed to him that he will* stay here on earth until his work is done. And he is tired too. So very very tired. But he just keeps on working and living in Montreal, doing his "thing" for all mankind. He can not make you read his works. And I can only suggest it.

He has proved beyond a shadow of a doubt that when a person leaves this life, it is because he has accomplished what he was put here to do. Some people have high assignments, and some have low. But whatever your appointed duties are, believe me - you aren't going no place until your work is done. Ask my boss. There is a living example. He emerged out of two heart attacks smelling like a rose. He carried on his duties after he recovered, and most people never knew how severe they were. He was retained here to finish a job. But before he could finish it, he had his third and worse heart attack. There isn't a doctor in the world (bar none) who wouldn't have given up on Andy. And every doctor who attended him did give up. But Andy never did. He knew his work was not done, and he could not finish it in that hospital. When I say the doctors gave up, that also includes all the machines hooked up to him, and the medicines pumped into him. There was absolutely no hope. Last Friday at 8 a.m. Andy called his wife Jean to come and pick him up from the shopital. He is home now and resting well.

Everyone has a duty to perform. It is up to each individual to find out why he is here and work only towards that end. You can go on and on, doing this thing and that thing. But believe me, until your mind (like a transmitter/receiver set) is put on the right frequency, you will never accomplish a thing. And look at the time wasted.

We all know how anxious he is to get back to work. But he will follow the doctor's request and remain silent, as far as the newspaper is concerned. We also know he feels like Kahlil Gibran, who said: "In my heart...., there are shadows and images that sway, walk, and expand like mist, but I am unable to give them the form of words. Peradventure it would be better for me to keep silent until this heart returns to what it used to be a year ago. But how difficult and how bitter is silence in the heart of one who has become accustomed to talking and singing."

Questions and Answers

Q--My husband, a World War II veteran, passed away recently. Is he eligible for a headstone?

A--Yes. Any deceased veteran of wartime or peacetime service whose last period of service wh
service was terminated honorably is eligible for this benefit.

Q--I draw VA compensation, and would like to know whether I can have payments on my VA insurance loan deducted from this compensation.

A--Yes. If you wish to use this method of repaying your insurance loan, get VA Form 29-888 from your nearest VA office, complete it, and forward it to the VA office to which you pay your insurance premiums.

Q--I am a Vietnam veteran interested in training under the G.I. Bill, but am not sure what courses I should take. Can the VA assist me?

A--Yes. If you are eligible for training under the G.I. Bill you may receive vocational counseling without cost, at your nearest VA office. A counselor will help you to better understand your interests, aptitudes, and abilities, and provide information on occupations you might want to consider.

As I See It

By Mel Vercoe

Sperm banks are a little bit different from regular banks. Sometimes regular banks have what are called "frozen assets." Sperm bank assets have to be kept frozen all the time, in liquid nitrogen at 321 degrees below zero, which is definitely cold enough to freeze the ears off a brass monkey.

The general idea behind the sperm banks, besides being a brand new business that just might be a real money-maker, is to remove some of the fear from male sterilization operations. The operations are surgically perfectly safe and virtually 100 percent effective. They also have absolutely no effect on the sex urge or ability. The only fear comes from the possibility that a fellow might wish at some later date to start the wheels in motion for another offspring and surgical reversal of the surgical sterilization is not always successful.

So, a couple companies have been formed to take care of this, and they operate on the layaway plan, a term that derives from the standard Christmas layaway plans. For a nominal fee of $55 per deposit and $15 per year for storage a fellow about to undergo a vasectomy may have a dozen or so vials of sperm sacked away for future use, with each vial containing about twenty million cells.

These deposits, unlike regular bank deposits, would draw no interest, and there is no way of knowing whether they would be useful when they were withdrawn for use. There is, in my opinion, some danger connected with such a radical departure from a plan that has worked quite successfully as a people reproducer for millions of years.

There is much evidence to indicate that offspring may be adversely affected by parental pre-natal use of certain drugs. A few years ago thousands of children were born deformed because the mothers had used a prescription tranquilizer called thalidomide, and heroin use during pregnancy can produce a child addicted to heroin, but these effects can't be blamed on the sperm. However, if an alcoholic father could be shown to be more likely to produce alcoholic babies than a coffee-drinking father, then we would have enough evidence perhaps to get a law passed that would prohibit sex except when it could be legally proved that both consenting parties were cold sober.

We just don't know at this time whether we should accept the idea of men playing God in the reproduction field. A few years from now, if we see an unusual looking child who has a distinct paranoia about opening refrigerator doors, then we can assume that frozen sperm may not be the best type to use.

National parks in the United States had 40,000,000 visitors during 1969.

Army Private First Class Bennie G. Day, 20, son of Mr. and Mrs. Garland Day, of Chicago, recently was assigned to the 92nd Transportation Company in Germany.

Pfc. Day is a driver in the company near Frankfurt. He entered the army in march, 1971 and completed basic training at Ft. Jackson, South Carolina.

His wife, Betty, lives in Seaside.

****

Army Specialist Six Richard L. Oprenchak, son of Mr. and Mrs. John J. Oprenchak of San Antonio, Texas, recently completed a five-week Army recruiting and career counseling course at the U.S. Army Adjutant General School, Ft. Benjamin Harrison, Indiana.

He learned the techniques and procedures of recruiting and reenlistment and the management of recruiting stations and reenlistment officers.

His wife, Martha, lives in Seaside.

****

Airman Arthur J. Kaelker, son of Mrs. Rosemarie Daelker of Seaside, has graduated at Sheppard AFC, Texas, from the U.S. Air Force aircraft mechanic course conducted by the Air Training Command.

The airman, who was trained to repair current Air Force jet fighters, is being assigned to Williams AFB, Arizona for duty with a unit of the Air Traning Command which provides flying, technical and basic military training for U. S. Air Force personnel.

Airman Kaelker is a 1971 graduate of Seaside High School.

****

Navyman Robert L. Lindsley, son of Mrs. Emma C. Stephens and husband of the former Miss Laura A. Gladston both of Marina, graduated from recruit training at the Naval Training Center at San Diego.

A former student of Cypress High School, Sea side, he is scheduled to report to the Naval Air Station, Memphis, Tennessee.

****

Second Lieutenant Joseph M. Lutz, son of Mr. and Mrs. Vitalis J. Lutz of Pacific Grove, has graduated with honors at Sheppard AFB, Texas, from the course for U.S. Air Force missile launch officers.

Lieutenant Lutz, who learned to operate and direct repair of Titan II missile systems, is being assigned to Vandenberg AFB, California. He will serve with a unit of the Strategic Air Command, America's nuclear deterrent force of long range bombers and inter continental ballistic missiles.

The lieutenant, a 1963 graduate of Hillsdale High Schoo l, San Mateo, received his A.A. degree in 1966 from West Valley College in Campbell. He completed the requirements for his B.A. degree in 1970 at San Jose State College.

Lieutenant Lutz was commissioned later the same year upon completion of Officer Training School at Lackland AFB, Texas.

****

Army Private Edward M. Palomares, 17, son of Mr. and Mrs. Edwin L. Palomares of Marina, is assigned to Ft. Ord. where he is training under the Modern Volunteer Army Field Experiment.

the new comcept, called volar, combines basic and advanced individual training into a single 16-wwk program. Decentralized insturction at the unit level and a reduction of formations and inspections gives the soldier more time to train and increased off-duty time. Fewer restrictions on off-duty travel and improved living facilities and other benefits of the volar concept.

Prt. Paromares began his training on January 24 and is scheduled to complete the first phase on March 17.

Bob Wood Reports

You are going to hear a lot about no-fault insurance. I'm sure all insurance people and trial lawyers understand the term well and in full detail, but it's a little complicated to some of the rest of us. Because of this, our office did a little checking on the subject and I will try to explain the term "no-fault" to you along with some of its positive points and some of the negative reactions.

Briefly, no-fault insurance means a plan whereby your own insurance company will pay your car damages and your medical expenses up to a certain level regardless of who is to blame for the accident. This plan would naturally delete the necessities of certain lawyers and lengthy lawsuits.

Some of the insurance companies and the State Bar Association wanted more time to study the idea further and possibly develop plans which would embrace some no-fault features and still provide what they call safe-guards that they deem necessary to protect individual rights.

No-fault laws have gone into effect in Illinois, Florida, Delaware, Oregon and Massachusetts. It is contended by those in Massachusetts that the so-called nuisance claims have been eliminated, that rates for bodily injury coverages were reduced 15 percent during the first year and will go down another 27 percent this next year. However, it should be pointed out that Massachusetts had the dubious distinction of leading the nation in the highest insurance rates prior to the no-fault experiment. Today, in Massachusetts, under the no-fault plan no suit can be filed when medical expenses are less than $500, but if they are in excess of that amount the victim of the accident may seek compensation for pain and suffering.

It is interesting to know that the Governor and the administration have come out recently and endorsed the concept of no-fault. However, the Governor has said the plan he supports will have to preserve the right to sue for damages beyond medical bills. This individual right I believe most of us would agree with.

Last year the bill passed through our Assembly, but was killed on the Senate side. It will be interesting to see what happens this year.

Grooving Around the Peninsula

with BETTY MANN

Hi there Fellow Peninsulans:

On February 16, 17 and 18, Mrs. Charlie Knight director of E.S.E.A. (Monterey County) hosted the Career Opportunity Program (COP) Conference at the Royal Inn, Monterey. The COP is nationally known for its interest in education, which focuses upon individuals from minority and majority groups, who have not received a college education and wish to become teachers in public education. There are many of these persons here on the Monterey Peninsula who are working under this program and who are employed by the MPUSD under the direction of Mrs. Charlie Knight. These persons attend school at the Foreign Language Institute and MPC at night and work in the local schools by day as aides and interns. These persons are titled as para-professionals and assist the teachers and counselors in the field of teaching.

Dr. Wilton Anderson, a very distinguished and articulate man, who is the acting Deputy of the Associate Commissioner Program Operations and Development, opened the conference speaking on the subject of the importance of the COP. He explained how it has successfully helped to upgrade the standards of teaching in the schools in the U.S.A. He said that there is a shortage of teachers in most areas in the country and those teachers who are available are understaffed and overworked with more than the maximum allowance of students per class. He also said that recruiters from the school district were usually sent out of state to the south and other places to recruit teachers, which is usually costly to the district. A plan was developed to use persons in the local areas who were interested in continuing their education and becoming certified teachers, as well as earning a salary as an aide or intern through the job training in the school system. In this way, Dr. Anderson stated, a new work force was suddenly created!

He said some of these dedicated para-professionals, who were starting from the ground floor up, were showing more enthusiasm and interest in teaching and relating to youngsters than some of the certified teachers who were in the classrooms. Thus, the combination of the dedicated and interested para-professionals and the certificated teachers makes it very advantageous for the students to obtain the highest level of education. However, there occas*sionally derives a small bit of animosity on the part of some certificated teachers towards the* para-professional. Since the para-professional is like an apprentice, if he is interested enough to go back to school and continue his education and show the interest in teaching, he should not be hampered but helped by the teacher in the highest interest of education for the students in general. Dr. Anderson stated that he wished that it were possible that all teachers could begin their teaching careers as para-professionals and work up the ladder to a certificated teacher. Perhaps than, the quality of education would really be at the highest level. I attended one of these sessions as a para-professional from the MPUSD and I must say it was like a shot of vitamins in the arm. I was really turned on by the various interesting speakers and how they were really telling it like it is! Right On to Charlie Knight for being the person responsible for bringing the COP program to the Peninsula.

Other news of interest around the Peninsula: Ida Hooks entertained a group of friends at an authentic Hawaiian Luau at her home. Roast Pig, Monterey Prawns and Cracked Crabs, were just a few of the delectables served at this exciting affair. The occasion was to celebrate Ida's birthday and the opening of her Beauty Salon (Royal Beauty Salon) on Broadway. The palate-tempting cuisine was prepared by a talented local culinary artist, Mrs. Brenda Black King, who spent many hours concocting the Hawaiian recipes.

Debs to Bow at Third Annual Cotillion Ball

The members of the Monterey Peninsula Cotillion league will present their 1972 debrtantes at their Third Annual Ball, which will be held this Saturday, March 4 at the Del Monte Hyatt House, Monterey.

NUMBER ONE - SFC, Jose Garcia (left), U.S. Army Recruiting Station Commander in Monterey accepts Top Recruiting Station Trophy from LTC Edward Barfield, Commander of all recruiting activities in Northern California. Monterey office won trophy for being top station in U.S. Army enlistments during last quarter of 1971. Sharing honors with SFC Garcia is SGT. Frank Richardson (right), also a recruiter on the Monterey Peninsula.

May Win An Oscar

Stax Organization's recording artist, Isaac Hayes, has been pre-nominated for two best songs and a dramatic score for the upcoming 1972 Academy Awards.

Hayes' songs, selected from the best selling album "Shaft," included "Theme from Shaft" and "Do Your Thing." His pre-nomination for best dramatic score was for his entire musical composition for the motion picture "Shaft."

Hayes won the 1971 Image Award for the best score from a motion picture and has also been nominated for two Golden Globe (foreign press) awards for his work on "Shaft."

SUMMONS (MARRIAGE)

In re the marriage of
Petitioner: Barbara Olsen
and
Respondent: Loyld Olsen

To the Respondent:

The petitioner has filed a petition concerning your marriage. You may file a written response within thirty days of the date that this summons is served on you. If you fail to file a written response within such time, your default may be entered and the court may enter a judgment containing injunctive or other orders concerning division of property, spousal support, child custody, child support, attorneys' fees, costs, and such other relief as may be granted by the court.
If you wish to seek the advice of an attorney in this matter you should do so promptly so that your written response, if any, may be filed on time.

Defect Is Revealed

Owners of most 1965 to 1969 model Chevorlets were warned of a possible engine mount defect -- which could result in a loss of power, steering and brakes -- in a consumer bulletin issued Friday by the National Highway Safety Administration.

The bulletin urged owners of the vehicles to have them inspected without delay.

First It Was 'Airborne'-- Then It Was 'Skyjacked' --At Oakland Airport

A jet hijacking, deep snow drifts, an Arctic storm, Russian soldiers, Sovietsecretservicemen and airport vehicles inscribed in Russian: "Anchorage International" and "Moscow Airport"--all were part of the recent scene at Oakland International Airport.

Passengers arriving at Oakland--some of whom blinked their eyes and thought they had landed in Alaska or that California had been invaded--were assured that none of it was "for real."

It was all part of Metro - Goldwyn - Mayer's filming of an air drama that stars Roosevelt "Rosey" Grier, Charlton Heston, Yvette Mimieux, Walter Pidgeon, Leslie Uggams, Jeanne Crain and James Brolin.

SWITCHEROO

Originally, the film was to be known as "Airborne" but . . .

According to an old Hollywood custom, the title "Airborne" has been changed to "Skyjacked"--in keeping with today's life-style and times.

The film story is an adaptation of David Harper's novel, "Hijacked." So--no surprise.

LOCAL LOCALE

The film involves a Boeing 707 flight from Oakland International that is skyjacked and flown to Moscow via Anchorage.

Oakland International Airport will figure prominently, appearing first as itself and later as both the Anchorage and Moscow airports.

For the Anchorage sequence, MGM used wind and rain making equipment, to lash the ramp area with a stormy downpour--climatic conditions called for in the script.

EARLY 'SNOW'

Oakland was selected to double for Moscow because, as a studio spokesman said, it looks much like the Russian air facility. To set the scene, drifts of man-made snow were placed in strategic spots.

And then--as almost every bay area resident knows--the unheard-of happened. It snowed all around the region--not only on the hills where such a phenomenon may be expected during a cold snap--but even down in San Francisco's Marina!

BIG CAST

In the film, Rosey Grier plays Gary Brown, jazz musician who bashes the hijacker (James Brolin) with his trusty instrument.

Charlton Heston pilots the plane. Leslie Uggams and Yvette Mimieux are stewardesses.

Walter Pidgeon is a United States Senator and a passenger on the ill-fated plane. Jeanne Crain is another passenger.

RELAXING

The cast of the then "Airborne" and now "Skyjacked" obviously enjoyed being on location in the Eastbay.
